

Product End-Of-Life/Sale Notification

Dear Valued Customer:

We are here to inform you the Industrial Wireless AP, WA512G series is being discontinued. This decision is a result of the extreme difficulty in procuring the main components, leading to the long delivery times and significant price fluctuations. Consequently, we have to suspend the promotion of this product. We are transitioning the WA512G to a project-based ordering product with a minimum order quantity of 1,000 units and a negotiated schedule. In addition, we are also working releasing new Wi-Fi 6 Industrial Wireless Router product as replacement product.
